- 4 National Guard Type-1 helicopters with water dropping buckets and personnel transport capabilities, and 1 National Guard helicopter with Medevac and rescue hoist capabilities assigned to support aerial firefighting operations in the State of California

## **Santa Barbara Front Country, Resource Preposition, Santa Barbara County**

- Resources mobilized for contingency
- 5 Local Government Engines assigned

## **FIRE ACTIVITY**

### **Modoc July Complex, Vegetation Fires, Modoc County**

Location: Northern Modoc National Forest

Jurisdiction: FRA

Per Cal OES Duty Officers and ICS-209 as of 07/29/17 at 1730 hours:

- 20,146 acres, 40 % contained
- Expected Containment: 08/04/17
- Construct lines – mop up and hold existing lines
- 2 Local Government engines assigned
- 1 Cal OES Fire Branch Assistant Chief

### **Island, Vegetation Fire, Siskiyou County**

Jurisdiction: FRA

Per Cal OES Duty Officers and ICS-209 as of 07/29/17 at 1717 hours:

- 1,306 acres, 21% contained
- Expected Containment: 10/01/17
- Minor fire activity – confine and contain strategy

### **Orleans, Vegetation Fire, Siskiyou County**

Location: Ukonom Mountain and Siskiyou Wilderness

Jurisdiction: FRA

Per Cal OES Duty Officers and ICS-209 as of 07/29/17 at 1801 hours:

- 660 acres, 0% contained
- Expected Containment: 08/09/17
- Line construction and structure protection of Ukonom mountain lookout

### **Clear, Vegetation Fire, Siskiyou County**

Location: Northeast of community of Goleta near Cachuma Lake

Jurisdiction: FRA

Per Cal OES Duty Officers and ICS-209 as of 07/29/17 at 1645 hours:

Type 3 IC

- 1,206 acres, 8% contained
- Expected Containment 09/15/2017
- Fire is burning in Timber and litter understory

# **WEATHER OF CONCERN**

## **Weather of Concern**

- Strengthening high pressure over California will bring the hottest temperatures of the year to Northern California.
  - Temperatures will exceed 100 in the west side valleys and 90 over the east side as early as today.
  - These warm temperatures will persist at least through the upcoming weekend.

## **Active Weather Warnings, Watches and Advisories by County:**

# WEATHER SYNOPSIS BY REGION

## **NORTHERN CALIFORNIA**

\*\*\*Near record-breaking heat through at least the middle of next week\*\*\*

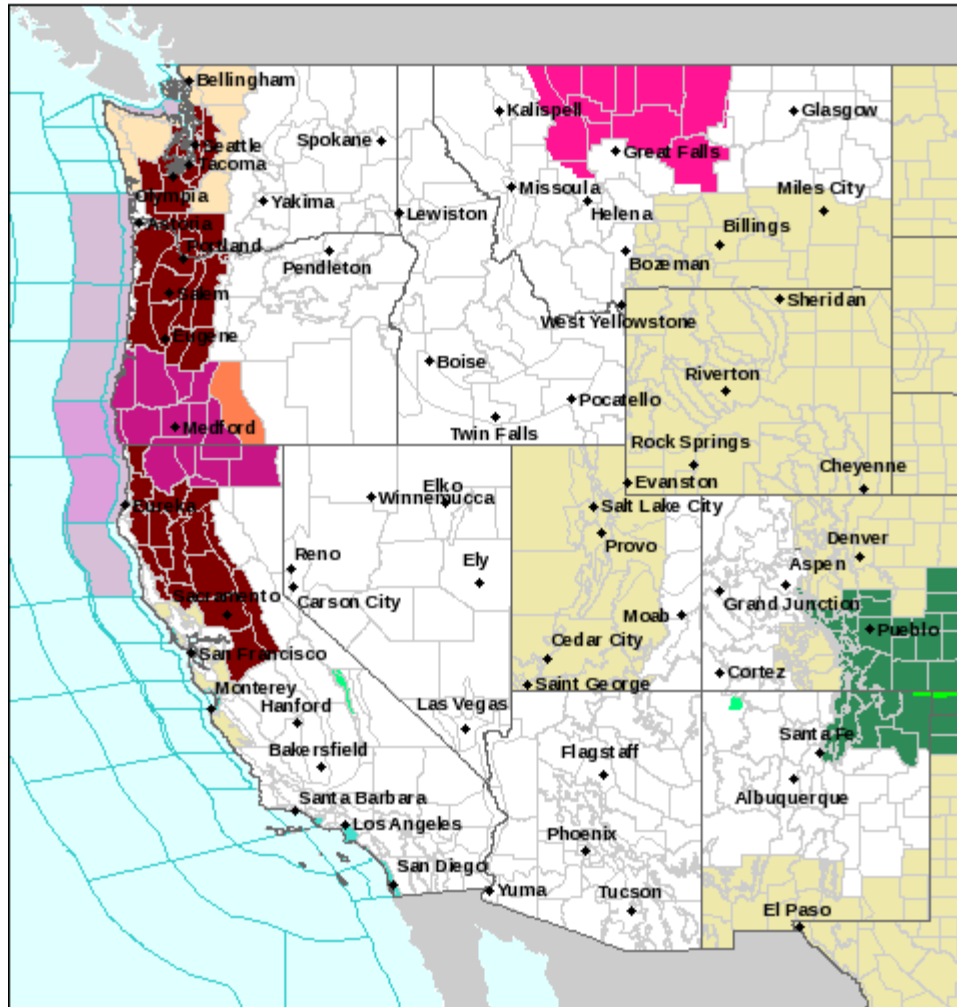

\*\*\*Isolated thunderstorms near the higher terrain possible each afternoon\*\*\*

A strong high pressure ridge will position itself over northern Nevada the next few days, resulting in very hot temperatures throughout the outlook period. High temperatures will climb a couple of degree through the weekend with the heat wave peaking in intensity tomorrow and Tuesday. By then, widespread 100-105 degree readings will be possible in the lower elevations away from the coast. The northern Sacramento Valley will see readings up to 113 degrees. The strong ridge will cause afternoon RH to fall into the teens over most areas below 5,000 feet away from the coast. Portions of interior Mendocino and Trinity Counties may see minimum RH fall into the 8-12% range for 4-6 hours each afternoon. The marine layer is currently around 1,200 feet deep, but marine layer depth and coverage will likely decrease a bit each day through next week. Isolated thunderstorms will be possible each afternoon and evening. Storms may migrate further north into Modoc and Lassen County today into the first part of next week. All storms should be anchored to the higher terrain and will dissipate quickly around sunset. Long range models indicate an increase in storms may occur next Wednesday through the end of the week as additional moisture from Southern California becomes entrained in strengthening southerly flow.

## **SOUTHERN CALIFORNIA**

East to southeast flow aloft around high pressure over northern Nevada will bring isolated afternoon showers and thunderstorms to the Sierra and to the mountains and deserts of Southern California east of I-15 this weekend. Temperatures will be near normal this weekend, with 80s to low 90s across the mountains and 90s to 102 in the valleys. Minimum humidity will be mainly between 12% and 25% above and inland from the marine layer this weekend, which is around 2,000 feet deep. The high pressure over Nevada will strengthen causing temperatures to warm to between 5 and 10 degrees above normal this week. Minimum humidity will increase to above 20% as more moisture gets pulled in from the east and southeast. Scattered showers and thunderstorms will form over the mountains and deserts tomorrow through the end of next week. Some of the shower and thunderstorm activity will also affect coastal and valley areas this week.

OF EMERGENCY SERVICES

# **Cal OES LAW ENFORCEMENT MISSIONS**

## **Ongoing Cal OES Law Missions**

- **2017-LAW-35471 4-27-2017, 0900 hours**, Trinity County Sheriff's Office (TCSO) is requesting HRD K-9's to search an area of USFS Land where they believe a homicide subject may be located. The suspect's vehicle was in this area for approximately 50 minutes. They estimated the terrain to be Type II and Type III. Request is for May 27th in the morning. **UPDATE: 7-28-2017, 1057 hours**, re-opened mission. TCSO requested 2 HRD K-9 teams to search a new area of the USFS Land for the remains of a 187 victim. Siskiyou County SO received new information on the case and wanted to re-evaluate the search area. This search will take place on, Monday July 31st . Shasta County SO is responding with their Cadaver search dog team. California Governor's Offices of Emergency Services, Law Enforcement Branch advised.  
**Mission Ongoing**

# Cal OES MISSION TASKING

## Cal OES Missions

- **2017-SOC-36209:** Two Public Assistance (PA) Coordinators from the state of New Jersey have been assigned to California through the Emergency Management Assistance Compact (EMAC) system.
- **2017-Cal OES-35819:** Twelve Caltrans engineers requested to conduct damage and site inspections throughout the state for impacts related to 2017 February Winter Storms. The lead engineer will report to the Joint Field Office to coordinate the response.
- **2017-SOC-37312:** Cal OES Public Assistance (PA) is requesting PA Coordinators to assume the role of Program Delivery Manager while utilizing a new hybrid program delivery method developed by FEMA. Colorado providing one personnel to deploy under EMAC.

# *Cal* OES
